

Let's celebrate Johnny Appleseed Day at the Bear Lake County Library! Did you know Johnny Appleseed was a real person? John Chapman was born on September 26, 1774. He planted apple orchards on the American frontier and was kind to people and animals wherever he went.

What color apple do you like best? Red, yellow, or green? Color this apple and bring it to the library. We'll hang it on our apple tree and give you a treat.
